2010 Anne Crosby Gaudet

# Listen Up in the Tree

- Print both pages on 100 lb card stock. You may like to have each page laminated.
- Cut apart the apples and pears. Apply magnets if you wish.
- The student will use either apples or pears, depending on his or her level. Spread them around the base of the tree.
- The teacher will play an interval, triad or scale on the piano. The student chooses the correct fruit card to go up in the tree. If the student answers incorrectly drop any one fruit card back down to the ground.
- Play until all of the fruit cards are up in the tree.
